

BRUSKE MACHINE BRUSHES, FILTERS AND BLOT-IT™

BRUSKE POWER SWEEPER BRUSHES...are replacement brushes you can depend on to fit your needs. These lightweight, rugged brushes will sweep floors of every description cleaner and faster, increase sweeper efficiency, and provide for longer brush life. They fit all of the popular in-plant sweepers and scrubbers including: Tennant, Clark-American, Power Boss, FMC(Wayne), Advance, Gravely, Elgin, and others.

The Bruske Power Sweeper Brush is constructed to assure that every bristle that goes into a new brush will still be present when the brush is completely worn out, just shorter in length. Here are dependable replacement brushes that will sweep better, last longer, and cost less per operating hour than any other type of brush you may be using.

For complete information and current price list, call or write Bruske Products.

BRUSKE THICK LINE PADS...Come in sizes from 7 $\frac{3}{4}$ " to 27" in Diameter, normal or high speed or ultra high speed buffing, spray buffing, and super polishing. Check your current 201 price list for complete information.

BRUSKE REPLACEMENT MACHINE FILTERS...make it easy to replace original filters for Tennant, Clark American, Power Boss, Advance, Factory Cat and other machines. Bruske flame retardant, bump pleat filter paper has been independently tested to insure correct efficiency, pressure drop and dirt holding capacities. Bruske urethane gaskets do not take a compression set as do other gasket materials, which is important when re-installing a filter after cleaning. Call Bruske Products or your Bruske Rep for more information.

BLOT-IT...is a non-dusting, non-tracking, high powered, super absorbent compound that allows you to clean up any kind of liquid spill in just seconds. Blot-it provides anti-slip, non-skid traction to eliminate slipping and/or falling accidents that are inherent with liquid spills. Blot-it is safe to use; no harsh chemicals, no corrosive agents, no flammable element. It's safe enough for use in U.S.D.A food service plants. It can be used anywhere! With Blot-it there's no need for mopping. Just sweep it up!
